

INTERNATIONAL CO OPERATION

SIATI has established co-operation with similar aerospace industry associations abroad like:

- Groupement des Industries Francaises Aeronautiques et Spatiqles (**GIFAS**) France
- German Aerospace Industries Association (**BDLI**) Berlin
- Society of British Aerospace Companies (**SBAC**) UK / currently **ADS**
- North West Aerospace Alliance (**NWAA**)
- European Association of Aerospace Industries (**AECMA**)
- Aviation Aerospace Australia (**AAA**)
- Skywin Wallonie, Belgium

SIATI has done a yeoman service to the Small and Medium scale industries to produce indigenized products and equipments. SIATI have interacted with many foreign Aerospace Societies like Society of British Aerospace Companies (SBAC), European Association of Aerospace Industries (AECMA), The German Aerospace Industries (BDLI) and have entered into Memorandums of Understanding with them to have joint ventures and co-production among European Companies and Indian Industries. This would not only enhance the knowledge of the Indian industries but also increase the export potential and lead to conservation of foreign exchange.
