

# Seminars & Workshops – Industry Interactions with R&D PSUs and Vendor Development

SIATI conduct International / National Seminars and Workshops on varied topics with active participation from R&D organizations, Industries and Overseas OEMs and Academic institutions. All functions are well attended and are useful for interactions with the members. The workshop/ seminar were focussed on R&D technology, product and process development, procedure for indigenous development, quality assurance, certification for airworthiness etc in addition to requirement of components, equipments systems to be developed for ISRO, DRDO, HAL, NAL for the defence equipments, airport ground handling equipments etc.

The seminar on **Science and Technology of Magnesium and its Alloys** Dr.C.G.Krishnadas Nair speaking during the seminar at Bangalore.

The Workshop on “Procedural Aspects of Indigenization” at Bangalore, L to R : Dr.C.G.Krishnadas Nair , Mr Ajay Vikram Singh,(JS Aerospace, MOD) Mr.R.N.Sharma, Chairman HAL, Dr Kota Harinarayana.

The activities of the Society in the form of Workshops, Seminars and direct industry interaction, have been of considerable interest to the Indian Space Research Organization, as they cover a wide range of critical technologies required in our projects and programmes. -  
**Prof. U.R.Rao**, Chairman Space Commission and ISRO, November 23, 1993
